

# An Intelligent Skincare System

Supercharge Your Skin Routine with our Powerful Results-Driven Professional grade products designed to deliver visible results.

DermaQuest's unique AI-powered skincare diagnostic & consultation engine helps to determine the perfect skincare prescription based on our core 6 steps: **Cleanse, Hydrate, Repair, Correct, Moisturize, Protect.**

## MelaQuest

This powerful collection of skincare harnesses years of research and world-class development to identify the most advanced ingredients that help fight skin discoloration across all skin types. Sixteen brightening peptides are expertly blended with plant stem cells, stabilized cysteamine, tranexamic acid, and lipid-soluble, photostable vitamin C providing remarkable results without the use of hydroquinone.

### Who It's For:

### What It Does:

# 1. Cleanse

Targeted hypoallergenic cleansers remove toxins and impurities deep within pores, while removing layers of dead cells.

## MelaQuest Facial Cleanser

This sulfate-free, skin brightening cleanser effortlessly blends antioxidants, soothing plant botanicals, skin brightening agents, and gentle cleansing ingredients to balance, hydrate, and revitalize photodamaged skin. Skin is balanced, refreshed, and radiant.

### WHO IT'S FOR:

For all skin types experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

# 2. Hydrate

Maximize the H2O healthy skin needs with humectants that draw and retain water to keep the top dermal layers from drying out.

## B5 Hydrating Serum

Our best-selling product, this hydrating serum blends mixed molecular weight hyaluronic acid with Aqua-Cell and vitamin B5 to expertly strengthen and fortify skin's barrier, leading to optimal moisture retention, radiance, bounce, and smoothness. For all skin types.

### WHO IT'S FOR:

Those experiencing dull, dehydrated skin.

# 3. Repair

Restore photodamage and skin discolorations from environmental and biological sources to rejuvenate skin and reverse or minimize the effects of aging.

NEW LAUNCH

## MelaQuest Cysteamine Serum

This potent brightening serum stabilized cysteamine to target stubborn discolorations, dark spots, and uneven skin tone in multiple ways, resulting in brightening and unification of skin tone. Synergistically blended with vitamin C and skin-protective peptides, skin remains brightened and radiant. Clinically proven 1.5x more effective than hydroquinone.

### WHO IT'S FOR:

For all skin types experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

## Advanced MelaQuest Serum

This high-tech, hydroquinone-free serum targets stubborn dark spots and skin discoloration directly at the source, resulting in visible improvements in unwanted pigment while protecting future recurrence. Expertly blended with soothing plant-based skin brighteners, irritation is minimized and radiance and even skin tone are restored.

### WHO IT'S FOR:

For all skin types experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

# 4. Correct

Address blemishes, blotches, dark circles, acne, and other minor imperfections in skin tone and texture.

HERO PRODUCT

## MelaQuest Cream

This dual-function brightening moisturizer improves the appearance of dark spots and discoloration while delivering potent hydration and antioxidant protection to skin. Enhanced with skin brightening plant extracts, this daily-use, non-hydroquinone skin brightener unifies skin tone and restores skin radiance.

### WHO IT'S FOR:

For all skin types experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

## MelaQuest Cream with Cysteamine

This powerful brightening moisturizer improves the appearance of dark spots and discoloration by delivering targeted ingredients into skin. Enhanced with cysteamine and other plant-based ingredients, this daily-use, non-hydroquinone skin brightener unifies skin tone and restores skin radiance to even the most stubborn spots and discoloration.

### WHO IT'S FOR:

For all skin types experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

# 5. Moisturize

Refer to an essential moisturizer to select your moisturizer of choice.

# 6. Protect

Complete your skincare prescription with one of our Sun Protection SPF products.

## SheerZinc Broad Spectrum SPF 30

With a unique blend of plant stem cells, peptides, and antioxidants, this SPF rejuvenates skin and softens fine lines and wrinkles while offering best-in-class broad-spectrum UV protection.

### WHO IT'S FOR:

All skin types and concerns.

## Eye

## MelaQuest Eye Cream

A comprehensive blend of madonna lily plant stem cells, antioxidants, amino acids, and vitamin C that work diligently to lift dark circles while peptides work as the savior within your skin to calm puffy, tired eyes. This dynamic collection of ingredients works to balance and improve the delicate skin around the eyes, revealing healthy, hydrated, and brighter eyes.

### WHO IT'S FOR:

For the delicate eye area experiencing photodamage, discoloration, and melasma. Ideal for prevention, correction, and repair.

Skin is brightened, skin tone is unified, and dark spots are visibly improved.
